A Place Upon The Green

When life on earth is over
Life anew is seen
Affording simple pleasures
In a place upon the green
When life on earth is in the past
A journey lived by faith
Step by step life's fairway
Brought me here by grace
Now I've gained new access
The course unfolding view
To master hill and valley
With each stroke straight and true
To enter into pleasures
Of the beauty I have seen
Since I was given entrance
To a place upon the green
