### Memories Eternal

Precious are the memories  
Displaying smiles and tears  
Placed lovingly in albums  
Passed down throughout the years  
Quickly all the days go by  
And time cannot erase  
Love shining from the faces  
On every treasured page  
Traits through generations  
Reflected still today  
A unique smile, a sound of voice  
The way that you prayed  
When the final page is turned  
Still destiny goes on  
To make eternal memories  
When the life is done
